

To Join YAM in Discord:

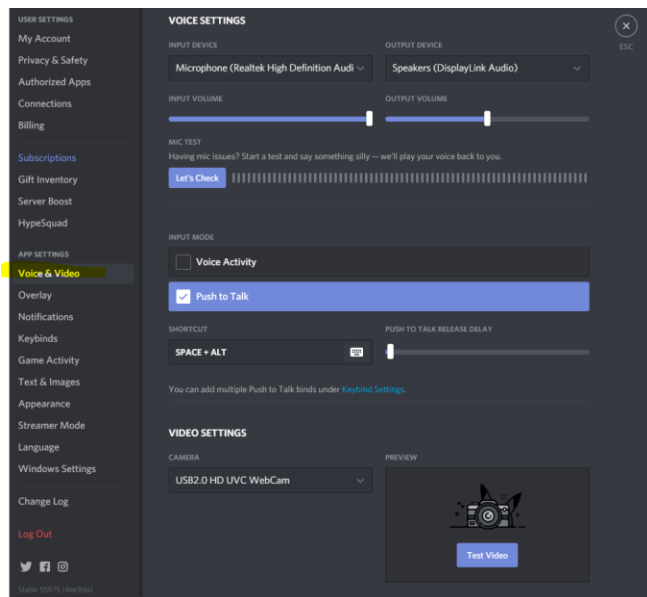

1. You will need an invite to the YAM Discord server. Message Nate at nathan@nerydnate.com or text him at 207-619-2969
2. You will need to enroll and setup a Discord account if you do not have one already.
3. Discord has an app for almost all devices. We do recommend downloading and using a Discord app instead of the web version.
4. In the Discord app, you will see a few channels on the left-hand side. In order to join, select the Friday channel. You should hear us and be able to talk right away. The mic icon mutes/unmutes you mic and the headphone icon mutes/unmutes the rest of us.

5. Once you go into here, the discord app will activate your microphone and speaker to whatever you have set in the Discord settings. Your settings are found at the bottom of the app – the gear icon next to your screenname:

This will give you access to all your settings. But sometimes you might need to adjust your Voice settings. This is found here:

Here you can make sure you are set to use the correct settings for your device do we can here you.
